

Hand cleaner

HCL 3000

- All-round soap for the bodyshop professional.
- Specifically designed for removing solvent- and water-based paints, glue, oil, grease and other contamination.
- Biodegradable.
- Contains a hand moisturizing and hand nutrient agent, based on aloe vera.

Made with ground walnut shells. The walnut shells provide an abrasive effect to get the contamination off your hands. This used to be done with 'microspheres' made of plastic but is very harmful to the environment. That's why we chose the walnut as an ecological replacement.
