

Boothmask wall protection film

PLA 32

- Static and paint absorbent white film cut to size in order to be used to protect spraybooth walls against overspray.
- The unique folding of the film makes it much easier and faster in application. Unroll the foil directly on the cabine wall over the complete lenght and add a magnet in the middle of the foil. Just unfold the foil up and down and add the additional magnet and the cabine is ready.
- Easy to remove.
