

TECHNICAL SHEET – BTC 001

Description

BTC 001 contains 1L of high concentrated cleaner for BTC 80.

BTC 80 is an economic and environmental friendly product used to clean spray guns in combination with water based paints.

After +-200 cleaning cycles the contaminated BTC 80 can be coagulated turning 20L of contaminated shampoo into 2-3kg solid material.

After coagulation the BTC 80 needs to be regenerated to its 100% strength. This can be done using the BTC 001.

These cycles can be repeated up to 10 times.

Shelf life

2years

The above information is given in good faith, but the user should assure himself that the performance of the product is sufficient for his application. The quoted values are average and should not be taken as maximum or minimum values for specific purposes. Chemicar Europe cannot be held responsible for product failure unless full testing has been carried out. The client has to decide on the products suitability for their own applications.
